## Invitation for ICAS 53 Meeting @ Oberpfaffenhofen

**Dear ICAS Members and Partners,**

We are pleased to invite you to the 53<sup>rd</sup> International Cooperation on ATM Systems (ICAS) Conference, to be held from March 18-19<sup>th</sup> 2025, at EDMO Conference Center in Oberpfaffenhofen, Germany.

Date of meeting: **18<sup>th</sup> – 19<sup>th</sup> March 2025**

**19<sup>th</sup> March is reserved for members. Unfortunately, we are unable to allow our partners from the industry to participate on this day.**

Additionally, thanks to UFA, Inc. (UFA) we are pleased to offer a pre-conference event featuring a visit to the ATCSim GmbH on the 17<sup>th</sup> of March including snacks and beverages sponsored by UFA. Please refer to the next page for further details.

Registration is possible via the ICAS website. The number of participants must be limited to 40. In general, we will apply the first come first serve principle when allocating places.

We kindly request you to confirm your attendance including pre-event and social dinner on day 1 by **20<sup>th</sup> of January 2025** to help us make the necessary arrangements. The registration will be completed with an email confirmation.

As discussed during the ICAS 52 in Luxembourg, we are working to make our group more interactive, allowing members to ask questions and receive feedback from one another.

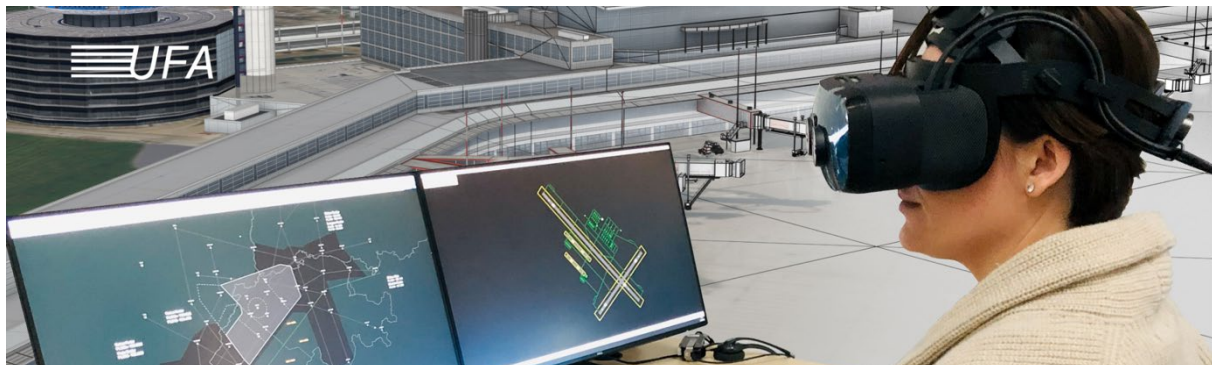

We are excited to introduce the ICAS community on WhatsApp. Please find the QR code to join. We would be happy to receive your feedback to help us improve this initiative.

*Scan me!*

Should you have any questions or requests, please write us: [secretary@icas-group.org](mailto:secretary@icas-group.org)

Very kind regards,  
The ICAS Board

## Join us for an Exclusive Pre-Event Experience!

Before the ICAS-53 event kicks off, we're pleased to invite you to an exclusive pre-event. Discover firsthand how UFA's innovative solutions are empowering ATC professionals worldwide – enhancing safety, boosting efficiency, and transforming ATC training.

### What to Expect:

- **Live demonstrations:** Explore our advanced simulation and training solutions, tailored to enhance learning and performance across all stages of ATC training.
- **Speech-Recognition Technologies:** Discover how our speech recognition-enabled solutions are already improving training efficiency and operational outcomes.
- **ATC Transcription Solutions:** Learn about our cutting-edge transcription technology and solutions, designed to transform air traffic operations.
- **Interactive Mixed Reality Simulations:** Experience immersive, high-fidelity training solutions with a compact footprint, suited for both civil and military ATC training use-cases.
- **Airside Training Solutions:** Experience flexible driving training solutions designed for airport operators and service providers.

Date: Monday, March 17, 2025

Time: 16:00 - 19:00

Location: ATCSim GmbH, a UFA, Inc. Air Traffic Control Simulation Company  
Kaufbeuren, Germany

Snacks and drinks will be provided, with demonstrations led by our experienced team.
